

INSTALLATION INSTRUCTIONS

TJ Security Door Lockers, Part #043

Please read and fill out the enclosed warranty registration card to activate your warranty.

Tools Needed

- T-40 Torx Wrench

Shipping Package

- ✓ (2) 5/16 x 1" Allen bolts with security pin
- ✓ Allen wrench with security pin

Mounting Directions

1. Using a T-40 torx wrench, remove the bottom bolt from top body hinge.
2. Using the special security allen bolt provided, fasten the correct door locker to the vehicle, do not tighten fully.
3. Lock the door locker by inserting the key and rotating the cam over the door hinge pin.
4. Make sure that the door locker body will not rub on the door hinge when the door is opened and closed (Leave about 1/16" space between hinge knuckle and door locker).
5. Tighten the allen bolt with the special tool provided. Be sure to put the special allen wrench in a safe place, they are not easily replaceable.
6. Check lock operation.
