The Scientists of Lighting

LIMITED LIFETIME WARRANTY

Baja Designs proudly offers a LIFETIME WARRANTY against manufacturer's defect on all the products that we manufacture.

These are comprehensive warranties; other than the exclusions below – you're covered. If your LED or HID bulb burns out, you're covered. Additionally, cutting off our connector or changing your lenses does not automatically void your warranty.

Exclusions:

Installation errors, abuse, misuse or crash damage. You must be the original owner of the product and can supply proof of purchase.

Baja Designs manufactures its own products as well as resells products manufactured by others. Baja Designs makes no express or implied warranties on products not manufactured by Baja Designs including without limitation any warranties or merchantability and fitness for a purpose. We will, however, pass on all warranties made by the manufacturer, who has sole responsibility for performing such warranties.

Baja Designs will pay the freight if your product is less than 90 days old, otherwise defective products must be returned to Baja Designs, Inc., freight prepaid. At our option, we will repair or replace items in question and return them at no charge. If the identical product is no longer available, we will replace with a similar product of equal value. Baja Designs Inc. will not be responsible for any indirect or consequential damages in connection with defective merchandise.

Items purchased through a Baja Designs authorized dealer must be returned through the dealer. Only available on LED auxiliary lights and product must be in sellable condition at MSRP. Product that has been damaged in any way after the original purchase date will be excluded from this guarantee.

Indemnification:

Buyer hereby acknowledges off-roading, racing and driving at night are dangerous activities and that the products and/or supplies purchased from Baja Designs are used in an inherently dangerous activity that may endanger life and limb; and in no event shall the seller, or seller's heirs and assigns, be held liable for consequential damages, nor shall seller's liability on any claim for damages arising out of or connected with the sale, delivery, or use of purchased products and/or supplies exceed the purchase price of the products and/or supplies

****For a color copy of instructions, visit your vehicle specific application on BajaDesigns.com ****

Tools Required

- 10mm, 9/16" Socket
- 9/16" wrench

1. Located above the tow hook on the inside of the bumper, using a 10mm socket, remove the factory bolt.
2. Place the appropriate bracket, (Passenger Side Shown) and re-apply the factory bolt and tighten down.

3. Using a 9/16" wrench and socket, torque down the light onto the bracket.
4. Plug in the 55" splitter onto the connectors on the light. Route the wiring across the bumper. Plug in the 10' extension into the 55" splitter.

5. Route the 10' extension over the axle and alongside the driver side of the vehicle to the front wheel well. Attach the upfitter harness and run through the wheel well into the engine bay.
6. Route the wires to the front of the battery where there will be 6 Aux wires. Using the table below, attach the splice connector to any desired Aux wire. Attach the ground ring terminal to the surrounding vehicle ground.

Tie all wires away from sharp, hot, and/or rotating components.

Re-torque all the fasteners after 100 miles.

Your install is now complete! Thank you for choosing Baja Designs.

Circuit Function	Fuse	Wire Color
AUX Switch 1	F001A - 50 Amp	Pink/Dark Blue
