### PARTS LIST

Qty	Part Description	Qty	Part Description
1	Jack Mount		

### INSTRUCTION PROCEDURE

- To ensure safety in use, please regularly check Jack Mount and all the parts connecting with car body for loose connections; clean the Jack Mount periodically

Remove the OEM Decorative Cover

Remove the OEM Screws

Connect mounting bracket with the car body and tighten with one outside hexagon bolt, M10 flat washer and one circular tube.

Install the mounting bracket on upper mounting plate and tighten with Cylinder head hex socket bolt and flat washer

Install the block rubber on mounting bracket and upper mounting plate with Round head bolt of a cross and nut, respectively.

Place the jack on mounting bracket and fixed with under mounting plate, handle nut and Non-slip gasket.

Install the Jack on mounting bracket with handle bolt and Non-slip gasket.

Installation Complete

**PRODUCT CARE**

1. Periodically check the product to ensure all fasteners are tight and components are intact.
2. Regular waxing is recommended to protect the finish of the product.
3. **Use ONLY Non-Abrasive automotive wax.** Use of any soap, polish or wax that contains an abrasive is detrimental and can scratch the finish leading to corrosion.
4. Aluminum polish may be used to polish small scratches and scuffs for **Stainless Steel finish.**
5. Mild soap may be used to clean the product for both **Stainless Steel and Black finish.**

**FAQ's****1. Hardware's are not of correct size.**

*In GMC / Chevrolet truck model 2006 & up, customer needs to reuse the factory body bolts to install the bracket. If your vehicle is not GMC / Chevrolet 2006 & up, please ensure that holes are not partially covered with any plastic grommet or rust? If it is, please remove the plastic grommet & rust from the thread holes & re-try the installation.*

**2. Mounting Bracket are not getting Installed properly.**

*In some cases Illustration images shown in Installation manual may not be the exactly same as per actual vehicle images ,also if Driver / Passenger side mounting brackets are very identical in the design, suggest referring Parts Identification guide to avoid fitment issue.*

**3. Products are thumping / rattling after installation.**

*Please ensure that all required mounting brackets / hardware's are installed & tighten correctly. Suggest using white lithium / regular grease between the metal to metal contact surfaces.*

**4. Side Bar is not aligning with vehicle / Step Pads are not aligning with vehicle doors.**

*Side bar may be interchanged or mounting brackets are not installed at the correct position in the vehicle. Please refer Parts identification guide.*

**5. Missing / Excess Hardware.**

*Recheck hardware count as per the part list.*

**6. Product not installing properly.**

*Ensure make model year, cab length and bed size of your vehicle is listed in the application. All installation steps are followed correctly.*
